PROFILE

Computer Science undergraduate at SLIIT with hands-on experience in full-stack development, Docker-based backend deployment, GitHub Actions CI/CD workflows, Azure basics, Linux commands, API testing, and Git-based team collaboration. Passionate about DevOps and Site Reliability Engineering, with practical project exposure to cloud deployment, containerization, environment configuration, cloud database connectivity, and Agile software delivery using Jira.

EDUCATION

Sri Lanka Institute of Information Technology (SLIIT)

B.Sc. (Hons) in Computer Science

Colombo, Sri Lanka

October 2023 – Present

SKILLS

Cloud & DevOps: Microsoft Azure Basics, Azure Web App Basics, Azure SQL Basics, Docker, Docker Hub, Vercel, GitHub Pages

CI/CD & Collaboration: GitHub Actions Basics, CI/CD Concepts, Git, GitHub, Jira, Agile/Scrum

Systems: Linux/Unix Commands, Server Environment Configuration Basics, Environment Variables

Backend & APIs: ASP.NET Core Web API, Java Spring Boot, REST APIs, JWT Authentication, BCrypt

Frontend: React, Vite, JavaScript, HTML, CSS

Databases: MySQL, Azure SQL Database

Languages: Java, C#, JavaScript, Python Basics, C

Tools: Postman, Swagger, Visual Studio Code, IntelliJ IDEA, Maven

PROJECTS

PathFinder – Smart Internship Management System | *Group Project*

May 2026

- Developed a cloud-based internship and job management system with Student, Company, and Admin modules.
- Deployed the React frontend on Vercel and integrated it with a cloud-hosted ASP.NET Core backend API.
- Containerized the backend using Docker and deployed it on Microsoft Azure with Azure SQL Database connectivity.
- Worked with GitHub Actions CI/CD workflow to build Docker images, push to Docker Hub, and support automated deployment.
- Used environment variables, GitHub Secrets, API testing, Jira task tracking, and GitHub collaboration in an Agile workflow.
- Tech:** ASP.NET Core, .NET 8, React, Vite, Docker, Docker Hub, GitHub Actions, Azure Web App, Azure SQL, Vercel, Jira.

Palm Beach Resort – Hotel Management System | *Group Project*

Aug 2025

- Contributed to a full-stack hotel management system with Admin, Customer, and Staff role-based access.
- Worked on authentication, room booking, booking history, staff task management, food ordering, and backend API integration.
- Handled frontend features, MySQL database operations, API testing with Postman, GitHub collaboration, and Jira-based task tracking.
- Tech:** Java Spring Boot, React, Vite, MySQL, REST APIs, Maven, Git, GitHub, Jira, Postman.

LifeMentor – AI-Based Wellbeing Platform | *Individual Project*

2026 –Present

- Developed a full-stack wellbeing platform with authentication, AI mentor chat, daily check-ins, lifestyle assessments, and goals.
- Implemented JWT authentication, BCrypt password hashing, account lockout, password reset, and protected user routes.
- Integrated Gemini API for AI responses and deployed the frontend using GitHub Pages.
- Tech:** Java Spring Boot, React, Vite, MySQL, JWT, BCrypt, Gemini API, GitHub Pages.

RELEVANT COURSEWORK

Cloud Computing
Data Structures

Computer Networks
Algorithms Analysis

Software Engineering
OOP Concepts

Database Management
Internet Technology

CERTIFICATIONS & LEARNING

Currently learning: AWS Fundamentals, Docker, CI/CD Pipelines, Linux, and DevOps Engineering Practices.

Hands-on practice: Git workflows, API testing, frontend deployment, cloud deployment, and environment configuration.

Interested in learning: Monitoring, observability, Jenkins, Kubernetes basics, Terraform basics, and infrastructure automation.

REFEREES

Prof. Kasun De Zoysa

Senior Lecturer, UCSC
